MEDIA RELEASE

NS PARTNERS MOVES ITS ZURICH OFFICE TO THE WEISSES SCHLOSS TO SUPPORT ITS NEXT PHASE OF GROWTH

Zurich/Geneva, September 8, 2026 – – NS Partners, one of the leading independent wealth and asset management groups in Switzerland and Europe, has relocated its Zurich office to the Weisses Schloss at General-Guisan-Quai 30. After 36 years of continuous presence in Zurich, the move marks a new chapter in the development of the Group's local activities and reaffirms its long-term commitment to Switzerland's leading financial centre.

A LANDMARK BUILDING IN THE HEART OF ZURICH

The new offices provide additional capacity to support the future growth of the business while offering an enhanced environment for clients, partners and employees. The move reflects NS Partners' long-term investment in the people, infrastructure and capabilities that underpin its development.

The Weisses Schloss is one of Zurich's most iconic historic buildings. Built in the late nineteenth century, it occupies a prime location on General-Guisan-Quai and is distinguished by its remarkable architecture, characterful interiors and heritage status. Recent renovations have preserved the building's identity while integrating modern infrastructure and high-quality standards.

ACTIVE IN ZURICH SINCE 1990

After 36 years of continuous presence in Zurich, this relocation underscores the strategic importance of Switzerland's leading financial centre within the Group's long-term development plans. It reflects NS Partners' commitment to pursuing sustainable growth while remaining faithful to the values that define its identity: independence, excellence, proximity and a long-term perspective.

With a team of eight professionals, the Zurich office offers not only the private banking services that have contributed to NS Partners' reputation and success, but also a broad range of multi-manager and long-only investment strategies for professional clients.

NS PARTNERS: INVESTING WITH TALENT AND BUILDING FOR THE FUTURE

For more than 60 years, NS Partners has built its reputation on an investment philosophy centred on independent thinking, talent and absolute performance. The Group was among the pioneers of manager selection and multi-management, disciplines that helped establish Switzerland as one of the world's leading centres for alternative investments.

With more than CHF 15 billion in assets under management and a governance structure renewed at the end of 2025, NS Partners today has the financial resources, human capital, organisational structure and entrepreneurial culture required to pursue its next phase of development.

"*Our move to the Weisses Schloss marks an important milestone for our Zurich office. This exceptional building reflects many of the qualities that define NS Partners: heritage, high standards, independence and a long-term perspective. It also provides an environment that supports our growth ambitions while reinforcing our commitment to clients, partners and employees,*" said **Pascal Scherer, Head of Zurich Office.**

"*Strengthening our presence in Zurich is fully aligned with our long-term development strategy. Our business is built on people, expertise and entrepreneurial culture. By investing in the right environment and framework, we enable talented professionals to perform at their best and continue delivering exceptional outcomes for our clients,*" added **Frédéric de Poix, CEO**.

ABOUT NS PARTNERS

Founded in 1964, NS PARTNERS is an independent wealth and asset management group, fully owned by its management. For more than 60 years, the Group has served an international private and institutional client base through an approach built on independence, rigorous investment selection and long-term client relationships.

NS PARTNERS operates across three complementary areas of expertise: Wealth Management, Asset Management and Management Company Services. The Group employs more than 120 professionals across seven offices in Geneva, Zurich, London, Luxembourg, Madrid, Milan and Bermuda, and manages or administers approximately CHF 15 billion in assets as at 30 June 2026.
